

# THE INITIATIVE ON ENERGY AND NATURAL RESOURCES LAW AND POLICY

## A Conversation on Energy and Climate with Colorado Attorney General Phil Weiser

Webinar - Friday, March 26, 2021  
12:00 - 1:00 PM MST

The interface between legal scholars and practitioners and policy-makers is critical to the formation of robust pathways towards a low-carbon future. To this end, we are excited to be establishing a new collaborative initiative on energy and natural resources law and policy. The partnership draws on CU Law's strong history of excellence in energy and natural resources law, and the technical and scientific excellence at the School of Mines.

The Getches-Wilkinson Center, CU Law School and the Payne Institute for Public Policy at Colorado School of Mines present a conversation with

**Phil Weiser**, Colorado Attorney General

**Morgan Bazilian**, Director, Payne Institute, and Professor of Public Policy, Colorado School of Mines

**Sharon Jacobs**, Associate Professor and Board Member of the Getches-Wilkinson Center for Natural Resources, Energy, and the Environment, University of Colorado Law School

This joint CU Law-Payne Institute webinar will feature Colorado Attorney General Phil Weiser. The conversation will cover the Attorney General's involvement in challenges to federal regulations that pose an obstacle to Colorado's ability to achieve its energy and climate goals. It will also explore the relationship between the federal and state governments and consider how the state can pursue its own ambitions. Other topics may include protection of energy consumers and the importance of equity and just transitions.
